

## Letter of Promulgation

To all Recipients:

Promulgated herewith is the revised Emergency Operations Plan for the Confederated Tribes of Warm Springs Reservation. This plan supersedes any previous versions of the Emergency Operations Plan. It provides a framework within which the Confederated Tribes of the Warm Springs Reservation can plan and perform its respective emergency functions during a disaster or national emergency.

This Emergency Operation Plan attempts to be all-inclusive in combining the five mission areas of emergency management to ensure that the Confederated Tribes of Warm Springs reservation is prepared to prevent, protect against, mitigate the effects of, respond to, and recover from the hazards and threats that pose the greatest risk to the Tribe. This includes the following:

- **Prevention:** activities necessary to avoid, prevent, or stop a threatened or actual act of terrorism.
- **Protection:** activities necessary to secure the Reservation against acts of terrorism and natural or human-caused disasters.
- **Mitigation:** activities that reduce loss of life and property by lessening the impact of disasters.
- **Response:** activities necessary to save lives, protect property and the environment, and meet basic human needs after an incident has occurred.
- **Recovery:** activities necessary to assist the community in recovering effectively from a disaster.

The Tribal Council has approved this plan. It will be revised and updated as required. All recipients are requested to advise the Tribal Emergency Manager of any changes that might result in its improvement or increase its usefulness. Plan changes will be transmitted to all addresses on the distribution list.

WHEREAS, the Tribal Council has been advised by Tribal Staff, the Tribal Water Control Board, as well as the relevant Tribal Committees, that the lack of snowpack in the mountains and rainfall throughout the Reservation have combined to create the worst drought conditions on the Warm Springs Reservation since measurements have been kept beginning in 1976; and

WHEREAS, Tribal Staff have advised Tribal Council that the extremely low snowpack and lack of rainfall have resulted in historic low streamflow measurements in the Warm Springs River and in Shitike Creek and Beaver Creek; and

WHEREAS, Tribal Council has also been advised that the current severe drought conditions on the Reservation will threaten and cause damage to fish and wildlife resources, agricultural production, domestic water resources, cultural resources and other natural and human resources on the Reservation; and

WHEREAS, the Tribal Council had determined that extraordinary measures must be taken to alleviate and mitigate the damage to natural and human resources on the Reservation caused by the current drought; and

WHEREAS, the Tribal Council believes that a Tribal Council Declaration of a Drought Emergency for the Warm Springs Indian Reservation would assist in bringing financial and in-kind aid to the Reservation from federal, state and other sources to deal with the current drought, now, therefore,

BE IT RESOLVED, by the Tribal Council of the Confederated Tribes of the Warm Springs Reservation of Oregon, pursuant to Article V, Section 1 (a), (f), (l), (t) and (u) of the Tribal Constitution and By-Laws, that the Tribal Council hereby Declares and Proclaims a Drought Emergency within the exterior boundaries of the Warm Springs Indian Reservation; and

BE IT FURTHER RESOLVED, by the Tribal Council that Tribal Staff and Departments are hereby directed to take all appropriate and necessary regulatory and enforcement steps and measures consistent with Tribal Law to address and mitigate the current Drought Emergency; and

BE IT FURTHER RESOLVED, by the Tribal Council that Tribal Staff and the Office of the Secretary-Treasurer/CEO are

hereby directed to pursue and seek any and all financial and in-kind resources available from federal, state or other sources to assist the Tribe with the current ~~budget~~ Emergency.
