Agency Water Announcement: Update, August 6, 2020...."As the Public Utilities Division begins work to make repairs to the Shitike Creek Crossing, we are asking that **all residents of the Agency area conserve as much water as possible from today through the weekend** to facilitate a system shutdown that will occur on Saturday August 8, 1010. At this time, it is our intent to conserve enough water within our reservoirs to maintain pressures and flow for more critical demands like fire suppression through the scheduled shut down. It is anticipated that the water system will be back up and running by the end of the day on Saturday barring any significant unforeseen events.....Affected residents should also take measures to protect their hot water tanks by shutting off the power to the tank until the water system is back up and running." Travis Wells, General Manager, CTWS Branch of Public Utilities

The Boil Water Notice is still in effect for Warm Springs Agency area. For more information contact: The Branch of Public Utilities, Water and Wastewater division at (541)553-3246
